Parking @Telecom House

When visiting kLab, a free of charge, safe parking ground is available to everyone at Telecom House the building kLab is based in, therefore you should never worry about where to park your vehicle when visiting kLab.

Entrance at Telecom House

Most government and private ICT institutions are hosted at Telecom House as well as kLab, therefore security is very tightened on site. For that reason it is highly recommended to non-kLab members (visitors) to carry out their **official documents** for the security check-ins at Telecom House and get a visitors badge, which you will leave back on your way out and get your papers.
